

# Take a Hike - or Ride a Bike

## CPR Trail to the Granby Dam Site

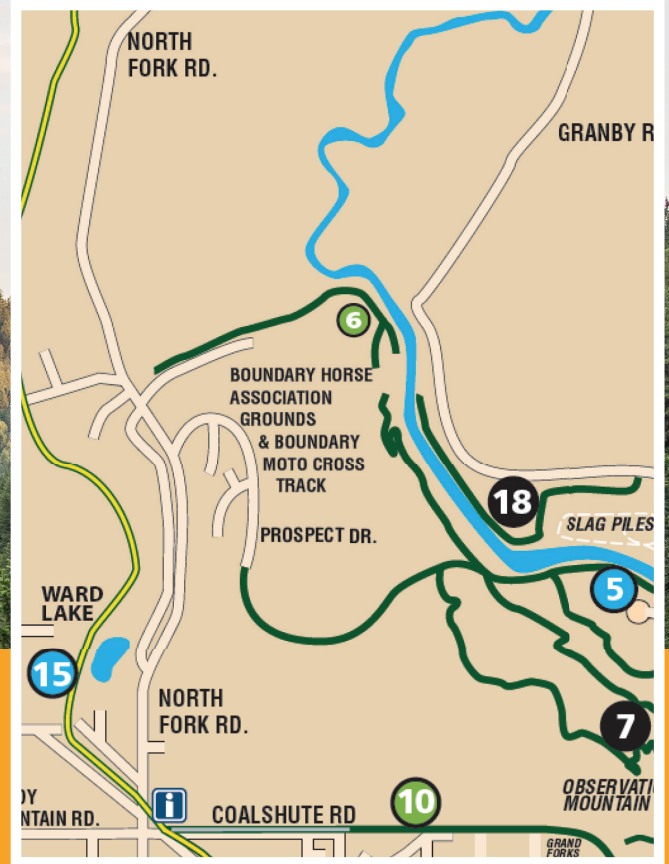

Easy - 1.4 km - 30 minutes one way - Heritage rail bed

Trail Info: This beautiful and accessible trail is a must in the Grand Forks area. With views of the Granby River the whole way, this trail ends with a great view of what was once the Granby Dam. This viewpoint has been updated by the GF Community Trails Society this year with a fence and an information sign that includes lots of fun facts! Keep an eye out and you might even find some little trails off of this main trail that lead to great lookouts or even beach access for a quick cool down!

There is public parking located at the trailhead. To get to this, drive 3.5 kilometres up North Fork Rd and take a right at the sign for the Boundary Motorcycle Club. Go 200m down this gravel road, please park outside of the gate and continue on foot. See 6 on map.

Things to know: These hillsides can be quite dry, bring water and stay hydrated! Also be watchful for rattlesnakes and pay attention to signage. During spring months there can be many ticks so remember to do a tick check at the end of your hike.

Adventure smartly and safely!

*There is so much to do while you're hiking in and around Grand Forks! Work up an appetite and head to any one of the Eateries or Farmers' Markets in town. There are lots of places to get geared up in Grand Forks at shops like Work and Play, Boundary Board Company, Seasons Outdoors, and Route 3 Apparel. If souvenirs are what you're after, check out Thistle Pot Gifts. For something different, why not try out the climbing wall or archery in Fresh Tracks Outdoors Club! And if you like to complement your outdoor activities with culture, the art scene is alive and well with street murals to discover as well as the beautiful art exhibitions in "Gallery 2."*

Watch this space each week throughout the summer as we take you on an adventure through the back country of the Boundary!
